-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED OFFICE ACTION

Faxing of Responses to Office Actions

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing or responses to Office Actions directly into the Group at (571) 273-8300. This practice may be used for filing papers, which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claim 1 has been amended for further examination. Claims 7 and 8 have been canceled. After further review and consideration, the examiner has withdrawn the allowable subject matter from the previous office action. A second non-final rejection is given below.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In Claim 1, it is not understood, how the applicant is “forming said looped binding element immediately before the inserting step”, and “forming a plurality of loops in the looped binding element in a row....., and inserting the loops into the perforations at the same time”. It is also not understood how one can form “a plurality of loops” in an already “looped” binding element. Shouldn’t this be “forming a plurality of loops in a pre-formed binding element”? Please explain with support from the specification or drawings.

Allowable Subject Matter

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 2-6 and 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: No prior art of record discloses or fairly teaches a process for producing brochures comprising determining a thickness of a brochure to be produced and storing the thickness in an electronic device; producing a binding element corresponding to the thickness; feeding the wire from a spool; bending wire into a flat, multiple loop binding element; cutting binding element and conveying it to an insertion device; supplying sheet like material to the insertion device, wherein the material has perforations; inserting the binding element into the perforations; bending the binding element into a ring-like binding; and including all of the other limitations in the independent claims.
